PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Computer Science engineering graduate with a solid academic foundation (CGPA: 8.69/10) seeking to leverage strong software engineering principles at Chetu Inc. Proficient in designing, developing, and implementing scalable software applications. Adept at writing clean, efficient, and maintainable code with a proven track record of debugging and testing complex systems. Strong collaborator experienced in cross-functional team environments, eager to contribute to full-lifecycle application development, database integration, and robust API design.

EDUCATION

Amity University Punjab, Mohali

Bachelor of Technology (B.Tech) in Computer Science & Engineering | *CGPA: 8.69 / 10.0 (Meets 7.5+ Eligibility Criterion)*

Expected Graduation: June 2027

GGMSSS, Chandigarh

Class XII (CBSE) | *Percentage: 89.6%*

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, HTML5, CSS3, PHP
- **Frameworks & Tools:** Git, GitHub, Jira Atlassian, Jenkins, NG Rock
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Core Competencies:** Object-Oriented Programming (OOPs), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Operating Systems (OS), Software Development Life Cycle (SDLC), Agile Software Development, Information System Design and Implementation.

ACADEMIC & TECHNICAL PROJECTS

CampusConnect – Placement Management System | PHP, MySQL, Bootstrap, CSS, HTML

- Built a full-stack placement portal with student and admin dashboards.
- Implemented drive management, application tracking, resume uploads, notices, and placement analytics.
- Added role-based authentication, PDF report generation, and automated placement status updates.
- Developed responsive UI and integrated MySQL database for real-time data management.

Personal Portfolio Web Application | PHP, JavaScript, Bootstrap, MySQL

- **Developed** a fully responsive full-stack portfolio application using PHP and Bootstrap for cross-browser device compatibility.
- **Wrote clean, maintainable backend code** in PHP to handle secure contact form data, server-side processing, and relational database storage.
- **Integrated a MySQL database** to dynamically store and retrieve project metadata, optimizing SQL queries to minimize page-load latency.
- **Tested and debugged** front-end JavaScript event handlers to ensure interactive functionality and eliminate runtime UI defects.

WORK & LEADERSHIP EXPERIENCE

AI/ML Intern | India Meteorological Department, New Delhi (*Jun–Aug 2025*)

- Processed and optimized high-volume time-series datasets, ensuring 100% data integrity and system reliability during complex testing phases.
- Performed rigorous model validation and statistical debugging to troubleshoot software defects and optimize application algorithmic precision.
- Authored structured technical documentation and reporting pipelines, aligning workflows with enterprise software compliance and coding standards.

Data Analyst Associate Intern | Excelerate (Remote) (*Jul–Aug 2025*)

- Designed, built, and structured complex relational database tables using PostgreSQL, integrating clean data layers to support scalable application components.
- Developed automated dashboards and exception-identification scripts to systematically test, debug, and monitor application KPIs.
- Collaborated actively with cross-functional technical teams to translate raw business requirements into structured software problem-solving blueprints.

CERTIFICATIONS & KEY ACCOMPLISHMENTS

- **Industrial Training: Application Development & Security** | NITTTTR, Chandigarh (*Ongoing*)
- **Data Visualization: Empowering Business Insights** | Tata (*Job Simulation*)
- **Power BI Job Simulation** | PwC
- **Data Analysis Using Excel** | Great Learning
