

PRACTICAL 3

FILL USER STORIES, SPRINT SCHEDULE AND SPRINT TASKS IN AN AGILE TOOL SUCH AS JIRA

Let's explore how to create user stories, sprint schedules, and sprint tasks in a Scrum template for the Internship & Placement Portal, and understand the process step-by-step.

PROCEDURE:

1) Click on “Create Space” as shown in Fig 3.1.

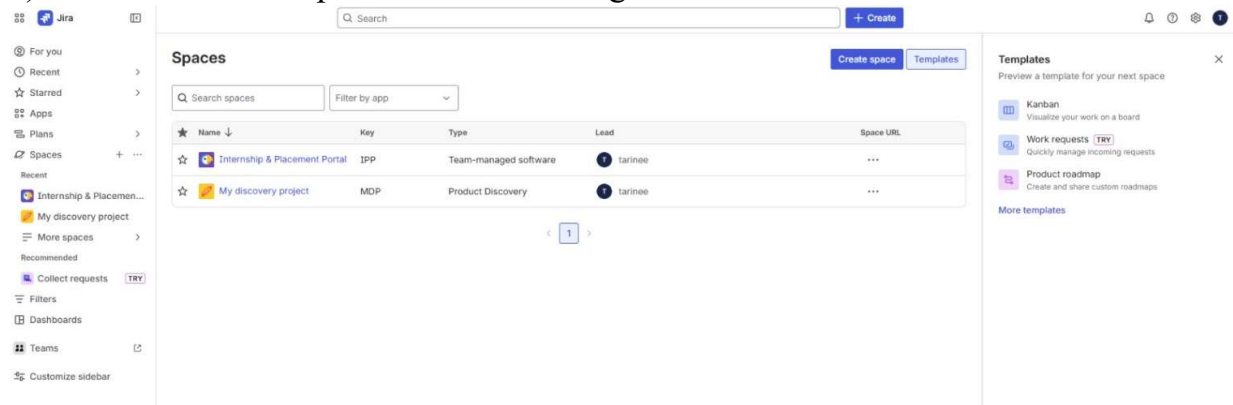

Fig 3.1

2) Click Software Development, then Scrum as shown in Fig 3.2.

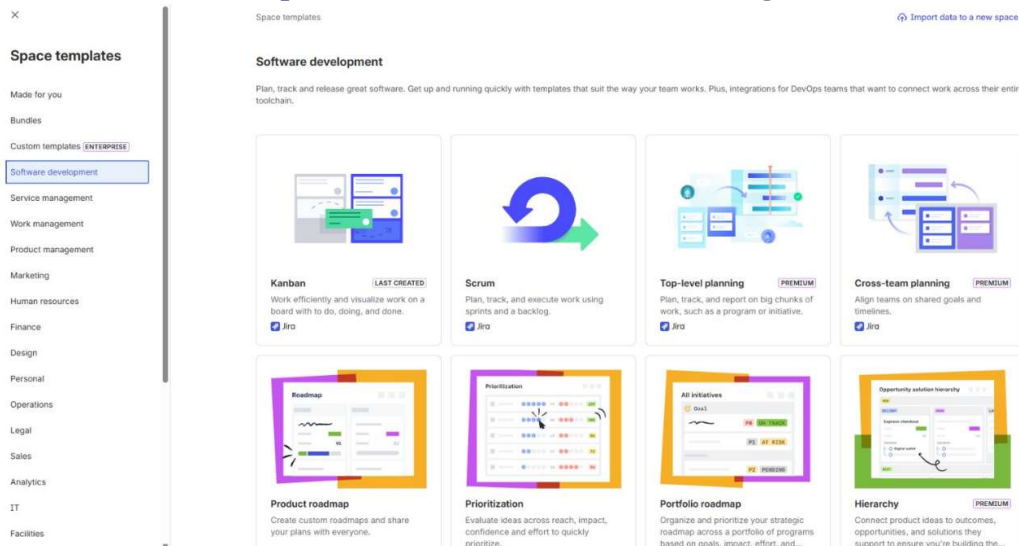

Fig 3.2

3) Click on Use template as shown in Fig 3.3.

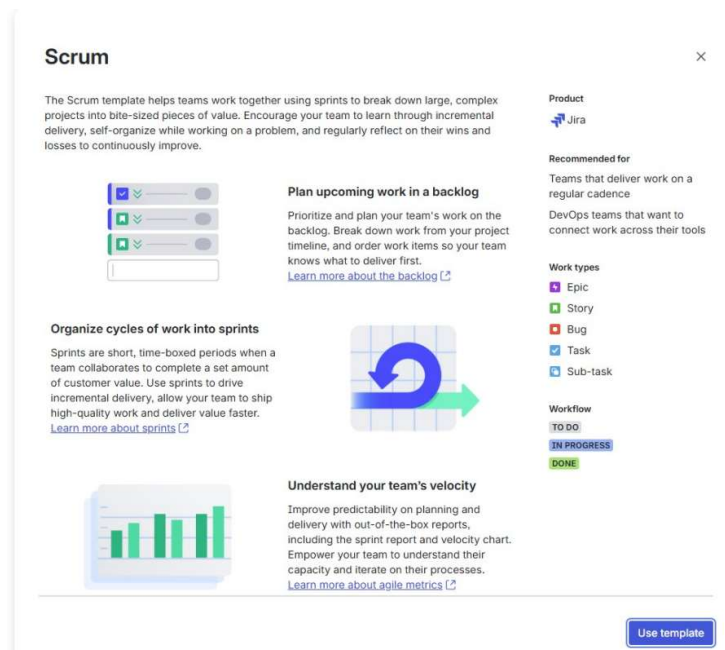

Fig 3.3

4) Fill the details as shown in Fig 3.4. Click Next then I” do this later.

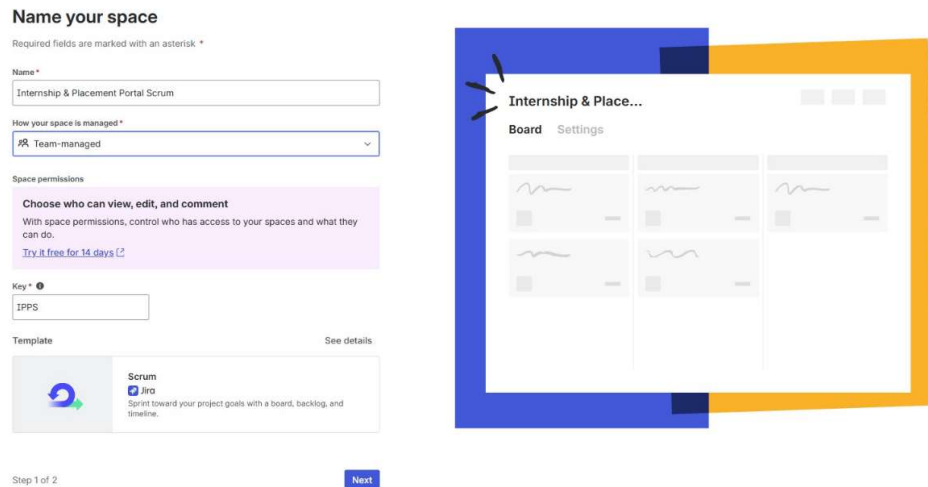

Fig 3.4

5) You will land on the page as shown in Fig 3.5. Click on Go to Backlog and you will land on page as shown in Fig 3.6.

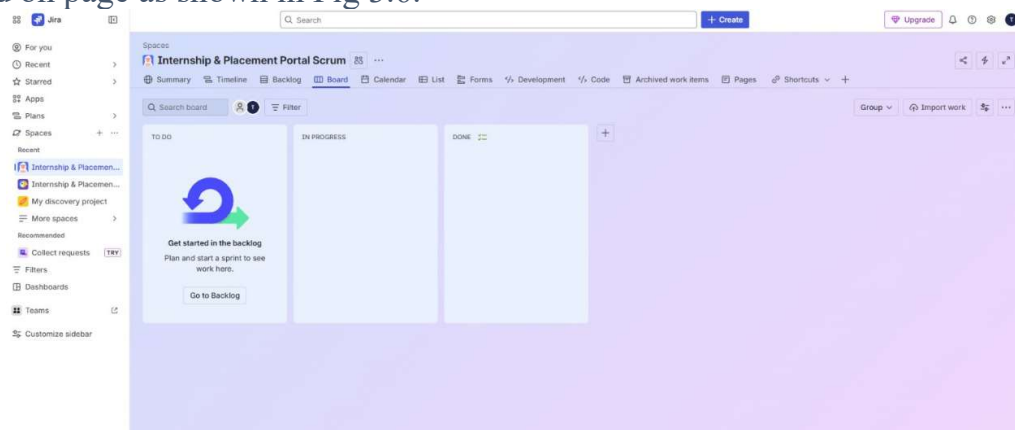

Fig 3.5

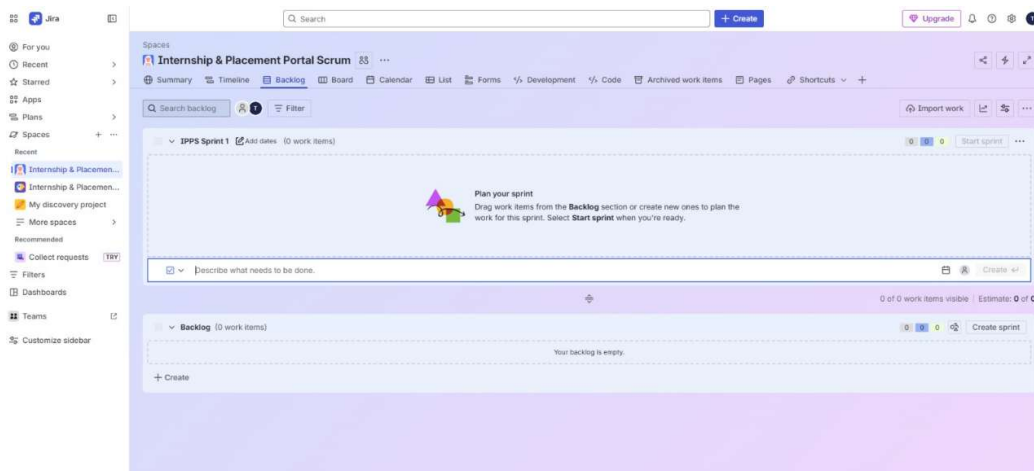

Fig 3.6

- 6) Click on button next to three dots. Turn on the Epic panel in View Settings. You will land on page as shown in Fig 3.7.

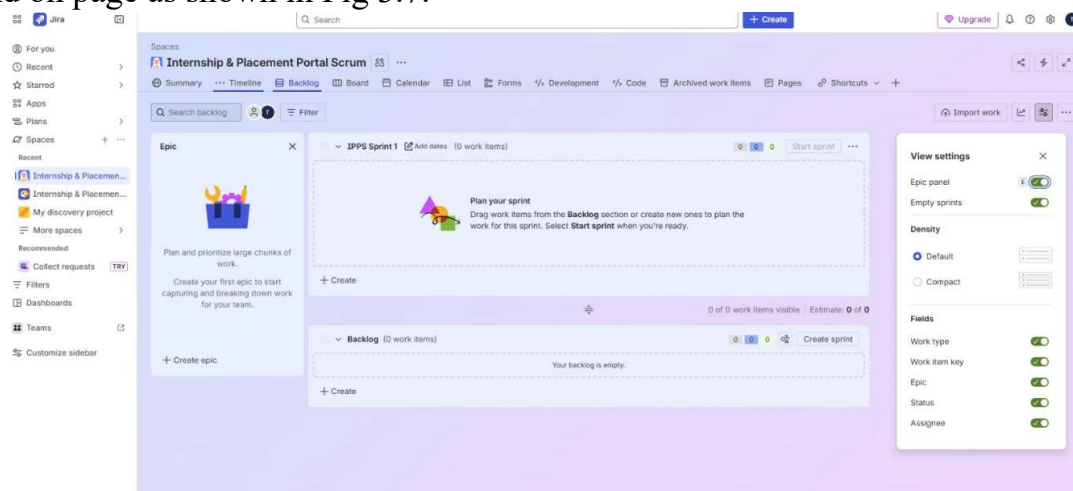

Fig 3.7

- 7) Create epic and change colour of an epic by clicking View all details. Change color as shown in Fig 3.8.

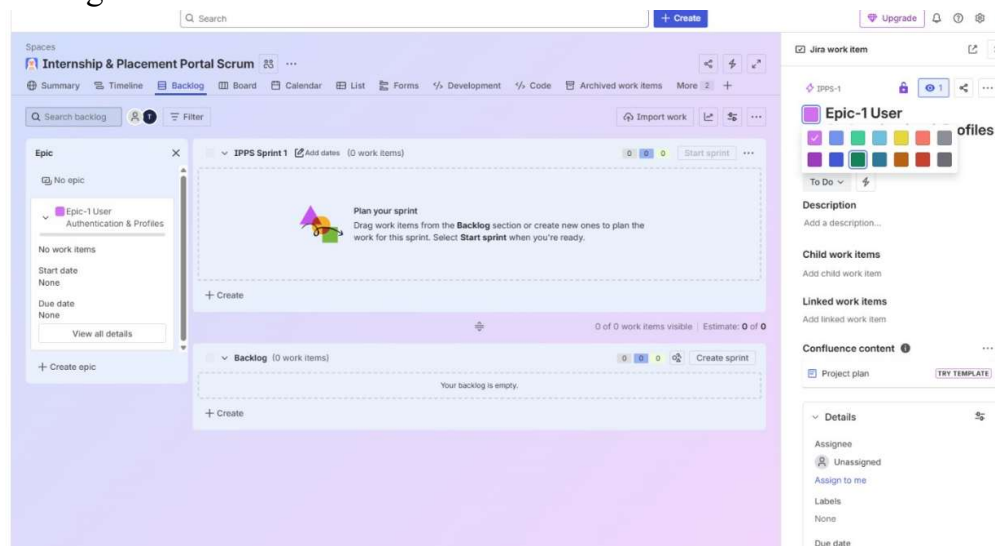

Fig 3.8

- 8) Create User Story and task using + Create as shown in Fig 3.8. After creating epic, user story and task your page will look like as shown in Fig 3.9.

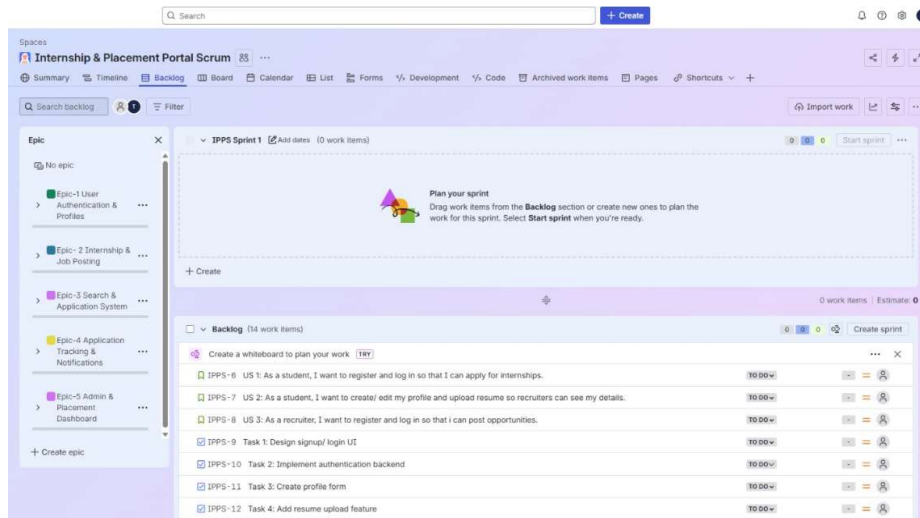

Fig 3.9

9) Select task and user story. Click on three dots → Move work item → IPPS Sprint 1 as shown in Fig 3.10.

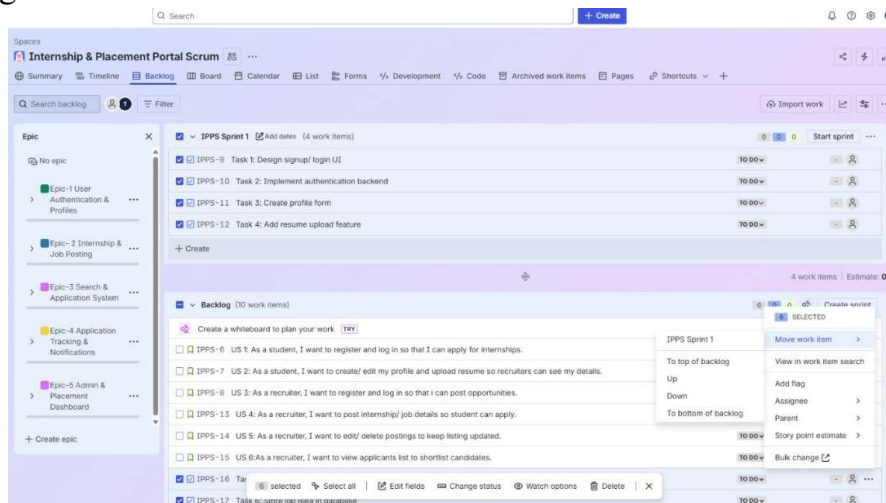

Fig 3.10

10) Edit Sprint by clicking on Add dates as shown in Fig 3.10. Edit Sprint dialog box will appear as shown in Fig 3.11.

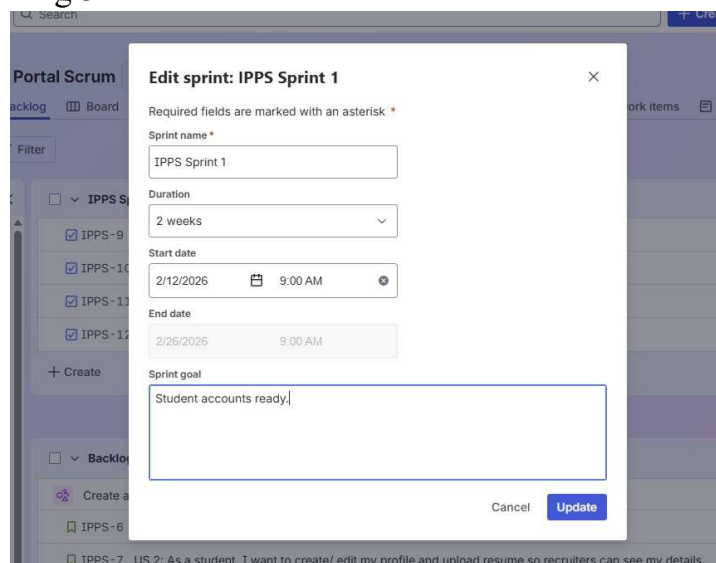

Fig 3.11

11) Add epic in task or user story by clicking +Epic as shown in Fig 3.12.

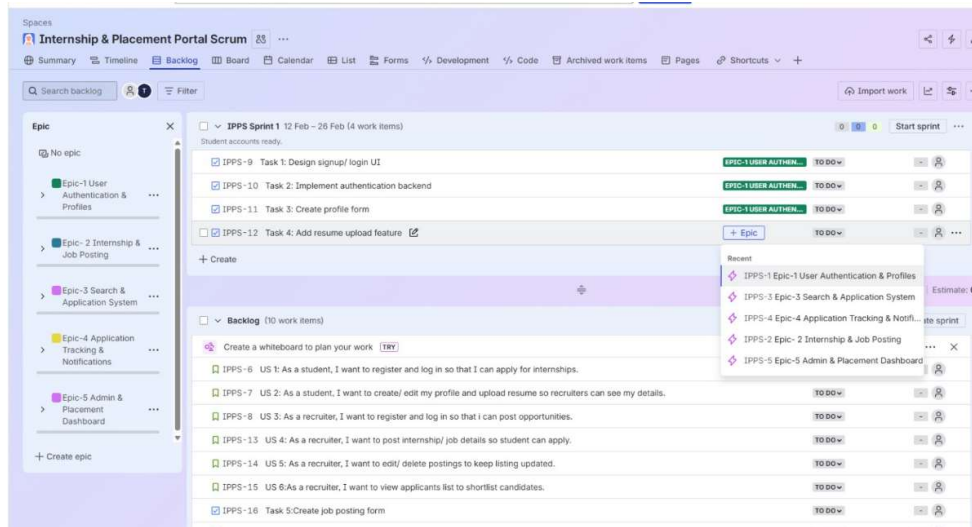

Fig 3.12

12) Click on Start sprint tab shown in Fig 3.12. Then go to board you will see items of epic added there in To Do as shown in Fig 3.13.

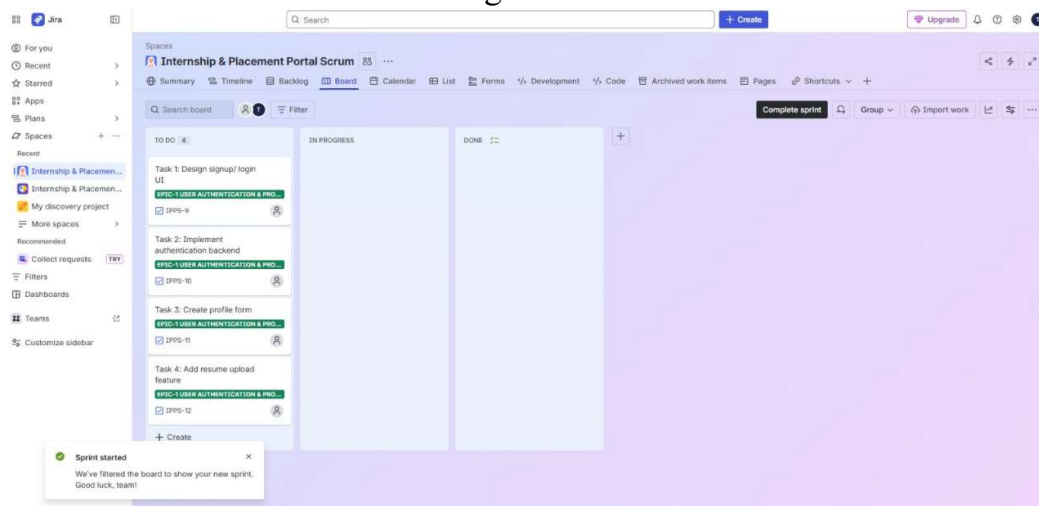

Fig 3.13

Practical Explanation:

In this practical, I learned how to create a Scrum template in Jira for Internship & Placement Portal project. I then created epics, user stories, and tasks, and added them to the backlog. I also learned how to move work items to a sprint, edit sprint dates, and add epics to user stories and tasks. Additionally started a sprint and viewed the items in the To Do column on the board.

Learning Outcomes:

In this practical, I learned how to create a Scrum template in Jira, including epics, user stories, and tasks. I understood how to add work items to the backlog, move them to sprint, and edit sprint dates. I also gained hands on experience with Jira's Agile board and learned how to start a sprint. This practical helped me understand the basics of Scrum project management in Jira.
